PREFACE.

In presenting to their Subscribers and the Public "A Directory to Gentlemen's Seats, Villages, &c. in Scotland," the Publishers trust that their endeavour to make it worthy of public patronage has been effected; and while they regret the long delay that has occurred, and which has been unavoidable, in order to secure accuracy, they hope that this, the first attempt to supply what has long been wanting, will be duly appreciated by the Nobility, Landed Proprietors, Bankers, Merchants, Men of Business, &c. &c., to all of whom it must be indispensable, as it will afford the utmost facility for the transmission of correspondence throughout Scotland, and at the same time be of unspeakable benefit for all mercantile purposes.

The Post Office information, in regard to the despatch and arrival of the Mails, has been collected and arranged with the greatest care and attention, from official and private returns, and affords an opportunity of calculating exactly the return of Post from any place in Scotland. The Work, also, embodies the latest Post Office information, including the alterations upon foreign postages, which came into operation under the recent convention with France.

From the circulation already secured for the work, the Publishers have much pleasure in being enabled (without any additional charge) to present their Subscribers with a Map of Scotland, engraved expressly for the work, at considerable expense.

Explanation:—In the Left-Hand Table are the Years of the Century, and above each of which is the Dominical Letter corresponding with that Year. Then, opposite to the Month and Week, at the Foot of the Right-Hand Table, will be found a corresponding Letter, over which are placed the Days of the Month and Week for that Month, (distinguishing the Sundays by a different Type.) Each Blank Space in the Left Hand Table shows the year following to be Leap Year; and as every Leap Year has two Dominical Letters, the Letter above the *Blank Space* must be used for January and February in every Leap Year, and for the other Months, use the Letters belonging to the respective Years.

By transposing the Dominical Letters, this Calendar would answer for any Century.

A system of Registration has been adopted, and all Letters, whether containing Coin or not, can be

REGISTERED

on payment of a registration fee of One Shilling, in addition to the ordinary rates of Postage on Inland and Colonial, as well as on Ship or Foreign Letters, or Letters passing through France. On those for delivery within France, the charges, besides the registration fee of one shilling, will be the English rate to France, in addition to double the French rate to the place on which the letter is addressed. A printed acknowledgment torn out of the receipt book, and stamped with the office stamp, will be given to any person registering a Letter. Registered Letters will be taken at the General Post Office, at the Receiving Houses, and by all Postmasters throughout the United Kingdom, until within half an hour of the closing of the Box for the particular Mail or Bag by which they are to be despatched. Registered Letters, bearing a sufficient number of Stamps, will be considered paid letters, but the registration fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood, that registration cannot extend beyond the port of despatch in the United Kingdom, though parties, if they wish it, may register such letters as far as the port of despatch. Letters, however, addressed to France, and letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, if addressed to France, and so long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of registration have been made with the view of insuring the punctual delivery of registered letters; on their delivery, the parties to whom they may have been addressed will be required to acknowledge in writing their receipt.

The system of Registration provides a secure mode of transmitting

BANK NOTES, BANK POST BILLS, DRAFTS, &c. &c.,

and persons having occasion to send by Post small sums, will avoid risk by sending the money through the medium of

THE MONEY ORDER OFFICE,

now carried on, on the public account, at the General Post Office. The commission chargeable for Money Orders being reduced to

THREEPENCE
ON SUMS NOT EXCEEDING TWO POUNDS,

and on sums above two, and

NOT EXCEEDING FIVE POUNDS, TO SIXPENCE.

No Order can be granted for sums beyond that amount.

These modes having been devised expressly with a view to the security of property, it may reasonably be expected that all persons having occasion to transmit money will avail themselves of the opportunity of securing it, and in no case, by committing property UNREGISTERED to the Letter boxes, RISK ITS LOSS.

If, however, persons are willing to incur such risk, should the articles forwarded be Notes, or Cheques payable at sight, they should be cut in halves, and the second halves should not be dispatched until the receipt of the first has been acknowledged. The numbers, dates, and amounts should also be carefully taken.

Money Orders may be obtained at the General Post Office, and of all Postmasters, and of the Chief Deputy Postmasters, throughout the United Kingdom.

(For List of Post Towns and Principal Places, see page 261.)

*** In cases where personal attendance is inconvenient, if the order is receipted by the person to whom it is made payable, and the party presenting it for payment

can afford full information as to the Christian name, Surname, Address, and Occupation of the person who originally obtained the Order, payment will be made; but unless these conditions are strictly complied with, it will be refused.

PEERS and MEMBERS of PARLIAMENT no longer dispatch or receive correspondence FREE. MEMBERS of either House are entitled to receive, free of charge, PETITIONS to PARLIAMENT, provided that each Petition is sent without a cover, or in a cover open at the sides, and does not exceed the weight of Thirty-two Ounces. ADDRESSES to her MAJESTY pass free. With these exceptions, all Inland Letters or Packets, including those from the Channel Isles and the Isle of Man, if Prepaid, are subject to the following

RATES OF POSTAGE:

Not exceeding half an oz. in weight, One Penny
——————— one oz. . Twopence
——————— two oz. . Fourpence
——————— three oz. . Sixpence,

and so on, Two Rates being added for every ounce up to Sixteen Ounces, beyond which, with the following exceptions, no packet, whether subject to Postage or no, can be received.

1. Parliamentary Petitions and Addresses to Her Majesty.
2. Parliamentary Proceedings.
3. Letters and Packets addressed to or received from Places beyond Sea.
4. Letters and Packets to and from Public Departments.
5. Deeds, if sent open, or in covers open at the sides. They may be tied with string and sealed, in order to prevent inspection of the contents, but they must be open at the sides that it may be seen that they are entitled to the privilege.
6. Bankers' Parcels despatched from London, and specially delivered at the General Post Office, under certain regulations.

With these exceptions, all Packets above the weight of Sixteen Ounces will be immediately forwarded to the Dead Letter Office.

Inland Letters or Packets put into the unpaid Letter Boxes, are charged double the amount of Postage to which, had they been prepaid, they would have been liable. The Scale of Weight in force for General Post Letters is equally applicable to Letters passing through the local penny posts throughout the Kingdom, and to those passing through the local Posts of Edinburgh, London, and Dublin, the Regulations which restricted the weight of these latter to Four Ounces having been abolished. They are subject to the same Rules and the same Charges as General Post Letters, and must be paid in advance, or they will be liable to double the rate to which they would otherwise be subject.

The same Regulation applies to Letters prepaid by Money, where the full and proper rate of Postage has not been paid in advance.

POSTAGE STAMPS.

Letters written on Stamped Paper, or enclosed in Stamped Covers, or having Stamps affixed to them, (the Stamps in every such case being equal to the rates of Postage chargeable on such Letters if prepaid,) will pass *Free* of all other Postage charge in whatever part of the United Kingdom they may be posted.

In those cases where the value of Stamps on the Letter is less than the amount of the Postage to which it would be now liable, if prepaid, the letter will be charged double the amount of such difference on delivery. An Inland Letter, for example, weighing more than Half an Ounce and not exceeding an Ounce, if bearing only a Penny Stamp, will be charged Twopence on delivery.

Stamps may be used for Printed Votes and Proceedings in Parliament; if the Stamps, however, should be less in value than the proper rate of Postage to which these documents are subject, only the difference, and not double the difference, is charged.

Stamps (provided they cover the whole postage) may also be used on Foreign, Colonial, and Ship Letters, &c., outwards. If any Letter, however, addressed to places beyond sea, to which prepayment is compulsory, shall bear an insufficient number of Stamps, it will be sent to the Dead Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries. In such cases, therefore, Letters will be chargeable with the same rates as they would be if not bearing Stamps.

All these Regulations will be applicable to Newspapers in those cases where they are liable to Postage.

NOTE.—Adhesive Stamps should be placed on the front of the Letter, and upon the right-hand corner on the upper side. Should this direction not be attended to, from the rapidity with which the duty must be performed, Letters which bear Stamps will frequently be taxed, while the Parties receiving them will be put to much trouble in obtaining a return of the Postage improperly charged. In all cases of complaint, whether of overcharge or of any other irregularity, the Covers of the Letters must invariably be kept and sent to the Post Office, as affording the only means of investigating the complaint.

ADHESIVE STAMPS AND ENVELOPES.

Every Postmaster, Sub-Postmaster, or Letter-Receiver, without exception, will sell the Postage Label Stamps and Stamped Envelopes to the Public at the following Prices:—

The Penny Label Stamps at 1d. each.
The Twopenny ditto, . 2d.
The Penny Envelopes, 24 for 2s. 3d., or 2 for 2¼d.
The Twopenny ditto, 12 .. 2s. 2d., or 3 for 6½d.

NON-COMMISSIONED OFFICERS, CAPTAIN'S STEWARDS, SEAMEN, AND SOLDIERS, to and from the East Indies by the Overland Mails, "*via* Falmouth," can send and receive Letters, under the weight of half-an-ounce, on their own private concerns only, while they are employed in Her Majesty's Service, or the Service of the East India Company, for one penny.

Letters coming from a Seaman, or from a Sergeant, Corporal, Trumpeter, or Private Soldier—The Penny must be paid at the time it is put into the Post Office.

The name of a Soldier or Sailor, his Class or Description, and the name of the Ship or Regiment, Corps or Detachment, to which he belongs, must be specified.

And the Officer having the command must sign his name, and specify the name of the Ship or Regiment, Corps or Detachment, he commands.

Letters going to Seamen or Soldiers.—The Penny must be paid at the time it is put into the Post Office, and the direction must specify the class of person, and the Ship, Regiment, or Corps to which he belongs.

The postage upon Soldiers' and Seamen's Letters received from parts beyond sea, without the penny having been prepaid, is twopence in addition to the Ship Letter gratuity, if received by Private Ship.

Threepence Postage is charged on Letters addressed to Soldiers and Seamen to either of the following places:—River Gambia, Sierra Leone, Goree, Senegal, Cape Coast Castle, Fernando Po, Coast of Africa, Ascension (Isle.) and China. To St Helena, the East Indies, and New South Wales, one penny. Seamen's and Soldiers' Letters from Abroad by private Ships are chargeable with threepence each.

*** Warrant Officers, either in the Army or Navy, or Master's Mates of the Navy, are not entitled to receive or transmit Letters at less than the usual rates of Postage.

Soldiers' and Seamens' Letters are not liable to any additional rate upon redirection; but all other LETTERS REDIRECTED, become, on redirection, subject to fresh rates of postage; but when a letter has been pre-paid, and the person for whom it was intended has quitted the place to which it has been addressed, the letter may be forwarded to any place in the United Kingdom, for an additional rate, to be paid on delivery.

OVERCHARGED LETTERS.--Overcharges returned at the Windows of the PAID-LETTER OFFICE from 10 A.M. till 4 P.M., and by the Post-Masters in any Country Office.

PRINTED VOTES and PROCEEDINGS in PARLIAMENT, or of the COLONIAL LEGISLATURES, are charged—

Under four ounces,.....1d.
Above four and under eight ounces.....2d.
Above eight and under twelve ounces, 3d.
and so on.

Such Votes and Proceedings, whether paid or unpaid, pass at these rates between places in the United Kingdom as well as the Colonies, by PACKET. To those places to which there are no packets, (New South Wales for instance,) they may be forwarded "by Private Ships," at NOT MORE the above rates. They are not, however, forwarded to the East Indies, *via* Falmouth and Alexandria, nor to places through France, under the full rates of Letter Postage. The Postmaster-General is authorized (if he shall see fit) to delay the transmission of Printed Votes and Proceedings in Parliament for any space not exceeding twenty-four hours from the time at which the same would otherwise have been forwarded.

COIN SHOULD NOT, UNLESS IN REGISTERED LETTERS, BE SENT BY POST.—The

great increase in the number of MONEY LETTERS having rendered it impossible, without hazard to the punctual despatch of the Mails, to continue the former practice of entering the addresses of such Letters, and of taking receipts for them on delivery to the parties to whom they were addressed; such practice being now adopted in the case of Registered Letters ONLY.

BOTTLES CONTAINING LIQUID, AND OTHER ARTICLES OF A BRITTLE NATURE, should not be forwarded through the Post, as they are almost invariably broken either by the operation of stamping or by the friction of the Mail Coaches. It is, besides, improper so to transmit such articles, as by accidents to them the seals of Letters in the bags may be damaged, the Letters mutilated, or their Addresses entirely effaced. For similar reasons, articles having SHARP OR HARD EDGES should not be transmitted through the Post: and the Act 3 and 4 Victoria, cap. 96, expressly directs that no letter shall be sent by Post containing any EXPLOSIVE OR OTHER DANGEROUS MATERIAL OR SUBSTANCE.

STAMPS.

The date shows when the letters were received at the Post Office.

The circular stamp, at the back of the letter, is used when the postage is to be paid on delivery, or has been pre-paid by stamps.

Ditto, on the face of the letter, with the word "paid," when the postage has been paid at the time of posting the letter.

LETTERS NOT TO BE DELIVERED BACK.—To prevent the possibility of Letters being surreptitiously obtained from the Offices where put in, office-keepers are strictly forbid returning, to any persons whomsoever, letters that may be applied for, under whatever circumstances the recovery may be urged. This is, moreover, forbid by the established principle, that the instant a letter is committed to the Post, it is no longer the property of the Sender.

PENALTIES.—By the 1st Victoria, cap. 36, sec. 2, any person illegally conveying Letters, incurs a penalty of £5 for every offence, and £100 for every week the practice is continued. The Sender also incurs a penalty of £5 for every offence, with full Costs of Suit.

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

It is not compulsory to send Newspapers or Supplements to Newspapers by the Post: but those that are intended to be so transmitted, are entitled to pass free. All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed on such papers after the same shall have been published; nor must there be any writing or marks upon any newspaper, or the cover, other than the name and address of the person to whom it is sent; nor any paper or thing enclosed or concealed in, or with such Newspaper or the cover, nor any printed words or communication on the cover, except that Newsvenders ONLY may PRINT their names and addresses thereon. Newspapers may be examined by the Officers of the Post Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage which a letter of the same weight would have been liable to. And any person who shall write or enclose any thing in any Newspaper or the cover thereof, or shall print any words or communication on a Newspaper, after it shall have been published, to be sent by the Post; or any person who shall knowingly send, or cause to be sent, by the Post, a Newspaper, in respect of which any one of those offences has been committed, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Newspapers pass free by the Edinburgh Local Posts, except in those cases where they shall be posted and delivered within the limits, for the time being, of the General Post Delivery, when the postage is one penny on each Newspaper.

*** As the mere affixing a Newspaper Stamp on any new periodical publication will not entitle it, as a matter of course, to pass free by the Post, those who may be about to publish, for the first time, any such paper, should submit a copy to the Postmaster-General, in order that it may be determined whether the publication is of a nature that will entitle it to pass free of postage.

Clause of the Act of 1*st Victoria, cap.* 34, *sec.* 32.

"And be it further enacted, that in all cases in which a question shall arise, whether a printed Paper is entitled to the privileges of a Newspaper or other Publication hereby privileged, so far as respects the transmission thereof by the Post under the Post Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.

Newspapers from the British Colonies

are delivered free of Postage at any place within the British dominions: those for persons who may have removed may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

NEWSPAPERS TO THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions by her Majesty's Packet Boats, free of the duty of Postage, provided the same be duly stamped and made up open at the ends, and put into any Post Office within seven days after the day of Publication.

Newspapers may also be forwarded to the Colonies by Private Ships for a Postage of One Penny each, to some Foreign Parts free, and to others for a Postage of Twepence each, to be paid at the time of putting in, under the same regulations as to date, &c.

Newspapers printed in the British Colonies, brought to Great Britain or Ireland by Packet Boats, if made up without covers, or in covers open at the ends, are delivered within the United Kingdom free of Postage.

Newspapers to the East Indies are forwarded by the Packet *via* Marseilles, on payment of twopence with each The Mail is made up in London on the Fourth of every month, except it happens to fall on a Sunday, when it is made up on the following day.

SHIP LETTERS.

The single uniform rate on Letters between the United Kingdom and places beyond Sea, when conveyed by Private Ships, is 8d., in whatever part of the United Kingdom the Letters may be posted or delivered. This is the rate now taken on Letters between the United Kingdom and the East Indies, &c. &c., when conveyed by Private Ship, the former distinction between these and other descriptions of Ship Letters having been abolished.

The rates of Postage on "Ship" as on other Letters are taken by weight.—

Under half an ounce,	Single.
Under an ounce,	Double.
Under two ounces,	Quadruple.
Under three ounces,	Sextuple, & so on.

PERSONS EXEMPT FROM SHIP LETTER POSTAGE.

The Owners, Charterers, or Consignees (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of Goods on board vessels inward bound, are entitled to receive their Letters free from Sea Postage, to the extent collectively of six ounces in weight, by any one vessel to any one such person. In the case of vessels coming from Ceylon, the Mauritius, the East Indies, or the Cape of Good Hope for an Owner, Charterer, or Consignee of such vessel, the letters may be collectively twenty ounces in weight. The Owner, Charterer, or Consignee must be described as such on the address and superscription; and in the case of Owners, Shippers, or Consignees of goods, it must also appear by the ship's Manifest, that they have goods on board the vessel. Such persons are entitled to have their Letters which come within the above conditions before the Master of the vessel delivers the other Letters in his charge to the Post Office.

*** Every person who shall, with intent to evade any duty of Postage, falsely superscribe a Letter as being the Owner, or the Charterer, or the Consignee of a vessel conveying the same, or as the Owner, or the Shipper, or the Consignee of goods shipped in such vessel, shall for every such offence forfeit ten pounds.

NORTH AMERICA, AND BRITISH AND FOREIGN WEST INDIA ISLANDS.

The Mails for North America are forwarded by Steam Packets, which leave Liverpool twice a month, immediately after the arrival of the London Mails of the 3d and 18th, unless either of these should fall on a Sunday, and then on the succeeding day. During the winter months, viz. Dec. Jan. Feb. and March, but one Mail, that of the 3d, is dispatched.

All Letters addressed to North America will be considered as intended to be forwarded by the Contract Steam Packets, and charged accordingly, unless the words "By Private Ship" be plainly written on them.

RATES OF POSTAGE WITHIN BRITISH NORTH AMERICA.

Letters forwarded to or from British North America by the Liverpool Packets, or by Private Ships passing direct between the United Kingdom and British America, are charged with an Uniform Colonial rate of Twopence the half ounce, when posted or delivered at any other towns than the Ports of Halifax Nova Scotia, or St John's, Newfoundland.

When not conveyed direct between the United Kingdom and British America, but forwarded through the United States, they are liable to the full Internal rates, according to distance.

PLAN FOR THE WEST INDIA MAIL PACKET SERVICE,

WHICH CAME INTO OPERATION (*experimentally*) 1ST OCTOBER, 1842.

OUT ATLANTIC—*One large Steamer.*—Out Mails leave Southampton on the 1st and 15th, and Falmouth on the 3d and 17th of each month. The steamer is about three days in reaching Corunna, four more in performing the 760 miles between that place and Funchal Madeira, and twelve to thirteen days between Madeira and St Thomas—rather above 260 miles. Thus the mails should arrive at St Thomas in nineteen or twenty days from the date of departure from England.

On reaching St Thomas the ship from Europe delivers all the outward Mails to to four steamers there waiting; one for the DEMERARA route; one for JAMAICA and HAVANNAH direct; one for PORTO RICO, HAYTI, CUBA, JAMAICA, &c.; and the fourth for BERMUDA.

Having dispersed the Outward Mails, the steamer remains to refit and be ready to form one of the four steamers to assist in the dispersion of the Outward Mails arriving at the end of fifteen days by another steamer from Europe.

Should the outward Steamer not reach St Thomas before midnight on the 22d day from the appointed time of departure from Falmouth, the four collected Steamers at St Thomas proceed with the Inter-Colonial Mails on their respective routes; the Out Mails in such cases being considered *Missing* Mails, to remain after their arrival at St Thomas till the next Out Mails from Europe arrive and are dispersed.

DEMERARA STATION.—*One large Steamer.*—As previously stated, the Out Mails should arrive at St Thomas in nineteen or twenty days. In twenty-two days from the Mails leaving England, the Steamer on the Demerara station starts with them to Tortola, 23 miles; thence to St Kitt's, 128; thence to Nevis, 11; thence to Montserrat, 33; thence to Antigua, 32; thence to Guadaloupe, 70; thence to Dominique, 45; thence to Martinique, 40; thence to St Lucia, 45; thence to Barbadoes, 100; and thence to DEMERARA, 390; being a total of more than 900 miles, which, being done at an average of eight miles an hour, the packet should arrive at Demerara in about four weeks from the date of the Mails leaving England.

The Steamer stops until thirty days, fifteen hours, reckoned from the time appointed from the Outward Mails leaving Falmouth; this gives an average stay of three days at Demerara. She then returns by the same route, receiving by the way all the Home and Inter-Colonial Mails from the different islands (including those subsequently named under the head "Trinidad Station"), which will be delivered to her by the Branch Steamer at Barbadoes. On reaching St Thomas she delivers the Home Mails to the Steamer bound to Bermuda.

The Mails to and from Berbice are to be forwarded overland via Demerara as formerly.

TRINIDAD STATION.——*One Small Steamer.*—On the arrival of the Steamer from St Thomas at Barbadoes, this Steamer receives all Outer and Inter-Colonial Mails destined for St Vincent, Grenada, Tobago, and Trinidad, at which latter place, distant from Barbadoes about 340 miles, the Mail should arrive in about four weeks from England. After about one day's stop at Trinidad, the small steamer returns by the same route with the Home Mails, and should arrive about one day before the large Steamer arrives at Barbadoes to receive them.

JAMAICA STATION.—*One small Steamer.*—This Steamer receives at St Thomas the Outward and Inter-Colonial Mails for Porto Rico, Hayti, and St Jago de Cuba, with which she starts at the same time with the "DEMERARA" Steamer. From St Thomas to St Juan's, Porto Rico, 65 miles; thence to Cape Haytien, 360; thence to St Jago de Cuba, 215; and thence to JAMAICA, 172 miles, at which place the small Steamer should arrive in between four and five days, or about twenty-six or twenty-seven days reckoned from the departure of the Mails from England. She remains at Jamaica until thirty-one days, fifteen hours, from that time, and then returns by the same route; on her arrival at St Thomas, the Home Mails, &c., are transferred to the Steamer bound to Bermuda, the small Steamer remaining at St Thomas to perform the same work after the arrival of each "OUT ATLANTIC" Steamer.

BERMUDA STATION.—*One large Steamer.*—This Vessel leaves ST THOMAS with the Mail for BERMUDA at the same time with the other outward-bound Steamers.

She conveys at the same time all the Home Mails collected by the Steamers on the DEMERARA, TRINIDAD, and JAMAICA Stations, and should arrive at Bermuda, distant from St Thomas 845 miles, in about six days, or about twenty-six from the date of the departure from England; at Bermuda meets the Steamer from Havannah, receives from her the Mails, &c., for England, and after completing her stock of Coal, becomes the HOME ATLANTIC Steamer, subsequently described.

HAVANNAH STATION. *One large Steamer.*—(By this vessel the Mails are conveyed to JAMAICA; the arrangement is made to afford the Island of Jamaica seven clear days for replying to its correspondence). On the arrival of the Out Mails at St Thomas, the Steamer receives the Out and Inter-Colonial Mails for JAMAICA—the "CHAGRES STATION," the "HONDURAS STATION," and the "MEXICAN STATION." With these she proceeds to Jamaica direct, 650 miles from St Thomas. She should arrive in three days. At Jamaica she delivers every alternate time the "SANTA MARTHA," "CARTHAGENA," and "CHAGRES" Mails, to a Schooner waiting to receive them. After a delay of twenty-four hours, the Steamer proceeds to Havannah, distant from Jamaica 710 miles. She should arrive at the Havannah in about thirty days from the date of departure from England. At Havannah she meets, every alternate time, a Schooner to which she delivers the Honduras Mails, and a Steamer with the Mexican Mails. From Havannah she proceeds to Nassau, 360 miles, thence to Bermuda, 775 miles.

The Steamer from St Thomas, as previously shown, ("See BERMUDA STATION,") is calculated to reach Bermuda in about two days after the Havannah Steamer; but should she not appear in that time, the Steamer for Havannah must not depart for Europe till eleven days after she quitted the Havannah.

This will allow three days for any casualty delaying the Steamer from St Thomas.

MEXICO STATION.—*One large Steamer.*—On the arrival of every *alternate* Out Mail at Havannah, this Steamer receives the Out and Inter-Colonial Mails for Mexico, and after four days' stay proceeds to Vera Cruz, distant from Havannah 810 miles, where she lands the Mails for that place, and for the city of Mexico; she then goes to Tampico, 205 miles from Vera Cruz, lands the Mails, and remains there until every thing is shipped—Mails, Specie, &c. She then returns to Vera Cruz, and remains there till fifty-four days, sixteen hours, reckoned from the time of departure from England. Having received Home Mails, Specie, &c., from Mexico and Vera Cruz, she returns to Havannah, meets the *Outward* Mexico Steamer, and proceeds to Bermuda, as shown in "HAVANNAH STATION."

HOME ATLANTIC.—*One large Steamer.*—Home Mails from Havannah reach Bermuda in forty days from the time the Out Mails left England; and the Home Mails collected at St Thomas reach Bermuda in forty-one or forty-two days from the same time. In forty-three or forty-four days, or as soon as the Steamer from St Thomas has completed her coals, the whole of the Home Mails leave Bermuda for England, by way of Fayal, 1770 miles from Bermuda, and 1350 miles from Southampton, which should be reached in sixteen or seventeen days from Bermuda.

LA GUAYRA STATION.—*A Schooner.*—On the arrival of each *alternate* Steamer at St Thomas, with the Out Mails for La Guayra and Porto Cabello in 22 days from England, this Schooner proceeds to La Guayra, 480 miles, usually performed in about ten days; thence to Porto Cabello, 68 miles; thence to St Thomas, 500 miles. The time occupied in going from and returning to St Thomas, is usually about 26 days.

CHAGRES STATION.—*A Schooner.*—On the arrival of each alternate Havannah Steamer at Jamaica, with the Out Mails for Santa Martha, Carthagena, and Chagres, which should arrive at Jamaica in about twenty-five days from England, this Schooner proceeds to Santa Martha, distant from Jamaica 440 miles, usually at the rate of 2½ miles an hour; thence to Carthagena, 105 miles, at about double that rate of speed; thence to Chagres, at about the same rate, 5 miles, and thence back to Jamaica, 560 miles, at about 2½ miles an hour. As the Schooner stops about two days at Santa Martha and at Carthagena, and about four days at Chagres, she occupies about four weeks in the voyage from and to Jamaica. She must leave Chagres on her return to Jamaica in precisely forty-three days, thirteen hours, from the time the Out Mails left Falmouth.

HONDURAS STATION.—*A Schooner.*—On the arrival of each alternate Out Steamer with the Honduras Mails, (which should arrive in about 30 days from England,) this Schooner proceeds with them to

Belize, Honduras, distant from Havannah 600 miles. She leaves Honduras again with Home and Inter-Colonial Mails in forty-six days, twenty-two hours, after the time of departure of the Out Mails from Falmouth; this allows a stoppage of about a week at Belize, including which the voyage to and from Havannah, (usually performed at an average speed of about two miles per hour,) occupies about four weeks.

*** *The Royal West India Mail Packet Company's Schooner no longer sails between Madeira and Fayal.*

month, unless it happens on a Sunday, when they are made up on the previous day. Letters intended for this conveyance must be specially addressed "*via* Falmouth."

Closed Mails are also made up in London on the 4th of each month, and dispatched *via* Marseilles, whence they are forwarded by British Steam Boats. All Letters are sent by this route unless otherwise addressed.

Letters are likewise sent *via* Marseilles, whence they are forwarded by the French Steam Boats, which leave Marseilles on 1st, 11th, and 21st of each month, if specially so directed.

N.B. The Letters which are sent in the Closed Mails on the 4th of the month, are forwarded from Malta to Alexandria by the Steam Boat which left Falmouth with the Mail of the last day of the previous month.

LETTERS NOT TO BE SEALED WITH WAX WHEN SENT TO WARM CLIMATES.

The practice of Sealing Letters passing to and from the East and West Indies, and other warm Climates, is attended with much inconvenience, and frequently with serious injury to the Letters, in consequence of the Melting of the Wax, and adhesion of the Letters to each other.

In the case of Mails received from India, considerable delay is occasioned; and notwithstanding the greatest care is taken in separating the Letters, which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn; the public are therefore recommended in all cases to use Wafers in preference to Wax, in securing their Letters sent to India or other warm Climates, and also to advise their correspondents in those countries to pursue the same course

A NEW CONVENTION

Having been made with France which will come into operation on the first day of June next, the following alterations in the rates of Postage, will take place on and from that date.

LETTERS TO AND FROM FRANCE AND PASSING THROUGH FRANCE.

The *British* rate on all Letters addressed to *France* and *Algeria*, or to countries *through France*, will be reduced to 5d. on a Letter *not exceeding Half an ounce* in weight, and the French rate on such Letters will be reduced to 5d. on a Letter *under the weight of a quarter of an ounce*, to whatever place in *France or Algeria* the Letter may be addressed, excepting however all Letters conveyed by *British* Packets in the Mediterranean, which will be liable to the *British Mediterranean rates* in addition to the above mentioned British rate of 5d. from England.

The French *transit* rate on Letters passing through France will also be reduced to 5d. on a Letter *under* the weight of a *quarter* of an ounce, but the other Foreign Rates will vary according to the limit to which the Letter may be paid.

All Letters addressed to France, or to countries through France (except to those countries hereafter mentioned to which the *British Rate* need only be paid), will be liable to both the British and Foreign Rates combined in the same manner as such combined rates are now charged on Letters paid to destination; for instance, a Letter *not exceeding half an ounce* is liable to one British rate, while a Letter *under a quarter of an ounce* is liable to one Foreign rate, and so in proportion, as shown in the following scale:—

			British Rates.		Foreign Rates.
A Letter under a.....	$\frac{1}{4}$ of an ounce.....	is liable to...	1	and	1
„ weighing a....	$\frac{1}{4}$ and not exceeding $\frac{1}{2}$	„ ...	1	„	2
„ exceeding.....	$\frac{1}{2}$ and under..... $\frac{3}{4}$	„ ...	2	„	3
„ weighing.....	$\frac{3}{4}$ and not exceeding 1	„ ...	2	„	4
„ exceeding.....	1 and under..... $1\frac{1}{4}$	„ ...	4	„	5

The British charge increasing *two rates of Postage* for every additional *ounce*, according to the scale of weight, for charging Inland Letters and the Foreign charge increasing *one rate of Postage* for every additional *quarter* of an *ounce*. It must be observed, however, that the English and French modes of charging by weight are dissimilar: a Letter *not* being liable to an increased *British rate*, unless it *exceed* the half ounce or

ounce, while an additional Foreign *rate*, is chargeable if it actually *attain* the quarter half, three quarters of an ounce, or ounce, respectively.

Letters to *France* and *Algeria* must be either unpaid or have the whole of the Postage to destination, British and Foreign, paid in advance, as it will be no longer optional to pay the British rate only.

The *Postage through France* must be paid on Letters for *Spain* and *Portugal* (when addressed *via* France), and on Letters for *Sardinia*, and the *Southern States of Italy*.

The Postage on Letters for Southern Italy may be paid through Sardinia (viz. to the frontier towns of Sardinia, *Broni* or *Sarzanne*,) as well as through France, and the Postage on Letters to Sardinia itself may be paid to destination in Sardinia as well as through France.

The following are the countries to which Letters may be sent by paying only the British rate of 5d. on Letters when not exceeding half an ounce, viz.:—

Turkey.	The Ionian Islands.	Germany.	If specially addresed *via* France.
The Levant.	Austria.	Belgium.	
The Archipelago.	Venetian Lombardy.	Holland.	
Greece.	Switzerland.		

Letters for *Baden*, *Bavaria*, and certain parts of Germany, served by or forwarded through the office of the Prince of Tour and Taxis, may be sent *unpaid*, or *paid through France* or *paid to destination*.

Letters for the following places may be forwarded by the *French* Mediterranean Packets which leave Marseilles on the 1st, 11th, and 21st of each Month, either *unpaid* or *paid* to *destination*, viz.:—

Alexandria.	Greece.	The two Sicilies.
Constantinople.	Malta.	Smyrna.
The Dardanelles.	Papal States, or States of the Church.	Tuscany.

Letters intended to go by these Packets should be addressed "by French Mediterranean Packet."

Letters for Malta and Alexandria may be also sent by the closed Mail on the 4th of each Month, either *unpaid* or *paid to destination*; but on Letters for the Ionian Islands and the East Indies, sent by such closed Mail, the *Postage must be prepaid*.

LETTERS FOR BRITISH COLONIES OR FOREIGN COUNTRIES BEYOND SEA, VIA FRANCE.

In addition to those countries and places on the Continent and in the Mediterranean, which have been already alluded to, Letters may be sent to any British Colony or Foreign Country beyond Sea from any Port in France, if specially so addressed. The charge on such Letters will be the British rate of 5d. on a Letter not exceeding half an ounce in weight, and a Foreign rate of 10d. under a quarter of an ounce, both which rates must always be paid in advance. It is advisable that the name of the Port in France from which it is wished that the Letter should be dispatched, and also, if possible, the name of the Vessel by which it is to be conveyed, should be stated on the address of the Letter.

REGISTERED LETTERS.

Registered Letters to *France* will continue to be sent under the *same regulations* as at present, and Registered Letters addressed to countries *through France* will be treated in like manner; that is, a Registration Fee of 1s. over and above all rates of Postage must be paid in advance, the British rate being the same as on other Letters similarly addressed, but not registered, but *double* the Foreign rates to destination, or to the utmost limit to which the Postage can be paid, to which an ordinary Letter would be liable, must be paid, and the whole of the Postage must be paid in advance.

NEWSPAPERS.

English Newspapers may be forwarded to France by Packet Free of Postage, or by Private Ship for One Penny each, and French Newspapers will be delivered in England for One Halfpenny each as at present.

On Newspapers to and from Spain, *via* France, the rate will be One Halfpenny each.

On Newspapers to and from Greece One Penny each, if forwarded by the French Mediterranean Packets.

On Newspapers forwarded by the *monthly closed Mail, and not* via *Falmouth,* or to and from the East Indies, Malta, or any other place in the Mediterranean, the rate will be 3d. each.

On Newspapers to and from all other countries, either on the Continent of Europe or beyond Sea, passing through France, the rate will be 2d. each. Prices Current and Commercial Lists duly stamped enjoy the same privilege as Newspapers.

PERIODICAL WORKS AND PARLIAMENTARY PROCEEDINGS.

Periodical Works, not strictly Newspapers, which are published as Pamphlets, and Parliamentary Proceedings, may be forwarded to France, *but to France only,* under the following regulations:—

Firstly, The Postage must be paid in advance.
Secondly, They must be sent in Covers open at the sides.
Thirdly, They must be printed in the English language.

The rates of Postage on such Works and Parliamentary Proceedings will be as follows:—

Not exceeding two ounces in weight.....1d.
Above two ounces and not exceeding three ounces.....6d.
Above three ounces and not exceeding four ounces.....8d.

And 2d. for every additional ounce up to the weight of sixteen ounces, beyond which weight no publication can be forwarded.

The regular Mails will be dispatched as at present from Dover to Calais, but Ship-Letter Bags will be made up between the following places, viz.:—

London and Boulogne.	Dover and Boulogne.	Brighton and Havre.
London and Havre.	Brighton and Dieppe.	Southampton and Havre.
Dover and Calais.		

The above-mentioned Rates and Regulations apply equally to all Letters passing between England and France, whether forwarded by the regular Mail Packet or by Private Ship.

It must, however, be distinctly understood that all Letters will be forwarded by the regular Mail from London, *via* Dover and Calais, unless specially addressed by Private Ship, and unless the route is specified.

MAIL-COACH ROUTES FROM EDINBURGH,

SHOWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE UNDER-MENTIONED PLACES.

THE following LISTS will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trifling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh. The return of the London Mails is calculated by London time.

FIRE INSURANCE.

Ordinary risks, such as dwelling-houses, household furniture, &c., are charged 1s. 6d, Hazardous insurances, which comprehend spirit-dealers' stock, bakehouses, Oils, and the like, 2s. 6d. Doubly hazardous risks, such as thatched buildings, China, Glass, Paintings, &c., 4s. 6d. Farm stock is rated only at 2s. per cent, free of duty, and no charge is made for the Policy, which, to Farmers, is an important saving upon small sums.

LIFE INSURANCE.

The rates of this Company will bear a very favourable comparison with those of any other office in the Kingdom.

The Company grant Assurances under a variety of forms: that is—they have Tables calculated showing the same ultimate results, but which may be used by persons insuring according to their different circumstances. Thus—Assurances may be effected for any limited time, or for the whole duration of life. The premiums may be paid yearly, half-yearly, or quarterly. As it is often an object for many persons to pay off their premiums within a certain time, instead of having them spread over every year during which they may live, Tables are computed to show the amount to be paid in one payment in 5, 10, 15, or 20 years.

PARTICIPATION IN PROFITS.

To those desirous of participating in the profits of the Company, while they are secured from all risk by its capital, the moderate premiums required and the *great* prospective *advantages* which are certain to accrue, present inducements of the most substantial nature. The whole profits resulting from this department will be divided among the Policy Holders, except a small portion which the Directors will apply to the expense of management.

Persons wishing to secure the sum Assured during their own lifetime, if they attain a certain age, or to have it paid to their representatives should they predecease that age, may accomplish this at a slightly increased rate of Premium.

Assurances are granted upon Joint Lives, and upon Survivorships. East and West India and other foreign risks, taken at Moderate Extra Premiums. Annuities, immediate and deferred, are granted upon very Liberal Terms. Money lent upon the security of Life Policies, and to Heirs of Entail upon Annuities during their lives.

CONSTITUTION AND OBJECTS OF THE COMPANY.

THIS Company was established at Aberdeen in the year 1836, for the purpose "of making or effecting Insurances of all kinds of Property against loss or "damage by Fire; Assurances of Single Lives, Joint Lives, and Survivorships; Loans "on Life Policies; the Purchase and Sale of Reversions, Reversionary Interests, and "Annuities; Endowments for Children; and generally for all transactions dependent "on the Contingency of Life."

The Capital of the Company is ONE MILLION, divided into 50,000 Shares of £20; but the Directors have power, if they think fit to exercise it, to extend the Capital to £2,000,000, by the creation of 50,000 additional Shares. The present Proprietary consists of nearly One Thousand Partners, of the first respectability and influence, thus affording to parties who transact business with the Company, besides the security of the ample Capital and large Accumulated fund, an undoubted personal guarantee.

PROGRESS OF THE COMPANY.

The progress of the Company has been eminently successful, and has surpassed the most sanguine anticipations of its projectors; the amount of business, particularly in

[*Continued.*

[*North of Scotland Fire and Life Assurance Company—Continued.*]

the Life Department, having, it is believed, exceeded that of any similar institution in Scotland, in the same period of time. The Directors are much gratified in being enabled to refer to this circumstance, affording as it does the best evidence that the various plans of accommodation offered by the Company have met with the approval of the Public.

ADVANTAGES.

I.—Fire Insurances are effected by the Company on the usual terms of other respectable establishments, and Losses are immediately and liberally settled on being ascertained.

II.—In the Life Department of its business, the Company holds out very superior advantages; the Tables of Rates, which are varied and extensive, having been calculated expressly for the Office, from the most recently ascertained probabilities of human life. The Assured are formed into two classes:—1st, Those who assure a stated sum, and are not entitled to contingent additions in Profits—(*See Table* I.) 2, Those who not only assure a stated amount, but also become entitled to participate in the surplus fund arising from their own contributions; and, besides the prospect of larger additions being made to policies in this class, at each period of the division of the Surplus Fund, the Assured enjoy an Immediate, Certain, and Annual Bonus, by the Rates of this Company being considerably under those of other similar institutions—(*See Table* II.) The funds of this class are kept separate and distinct from the other accounts of the Company, and the assured may name three of their own number to act along with the Ordinary Directors in the management and investment of these funds. The first investigation takes place in 1846.

III.—Premiums may be made payable in any way to suit the convenience of the assured.

IV.—The sum assured may be made payable *to the party at any age fixed upon*, or to his heirs or executors, should he die previously—(*See Table* III.)

V.—One-half of the Premiums may remain unpaid for five years from the date of the Policy, to be deducted, with interest, from the sum assured at death, or paid off at convenience.

VI.—No charge is made for Entrance Money.

VII.—Claims are paid within three months after satisfactory proof of death.

VIII.—Loans are made on Policies.

*** Persons desirous of effecting Assurances, for either *One Year, Five Years, Seven Years*, or *Ten Years*, or by any other mode of payments than those stated in the foregoing Tables, will be accommodated on application at the Office or Agencies, where the Rates for all Ages, and for Insurances on Joint-Lives and Survivorships, Endowments, and Annuities will be ascertained.

NATURE AND BENEFITS OF LIFE ASSURANCE.

The nature and benefits of Life Assurance are now generally well understood. Any person desirous of providing against the pecuniary inconvenience which the failure of his own or another's life would occasion, may, by devoting a fraction of his present income to an Assurance Fund, secure a large amount payable either to himself or his representatives, as the case shall be, on the termination of the life named, after which

[*Continued.*

[*North of Scotland Fire and Life Assurance Company—Continued.*]

no further payment is required. Thus Husbands and Fathers may secure posthumous provision for their Wives and Families; Sons and Brothers for their dependent Relatives; and all may by the same means give or obtain security for Debts, Loans, the Terms of Marriage Settlements, Property in Reversion, Capital Sums sunk in Annuities on the lives of others, Fines on the Renewal of Leases, &c. &c.

An institution subservient to the wants of society in so many ways, requires only to be known to be universally resorted to; and no statement of instances, whether of vast advantage experienced from its adoption, or of melancholy privation suffered from its neglect, can be needed to convince the judgment of every reflecting person as to its paramount utility. And it is within the attainment of all—not in every case to the extent of conferring independence, but certainly in all of bestowing most important relief. Nor is it the young and vigorous who may safely overlook it—but those only who have already in some sufficient way made that provision, which in most cases Life Assurance alone can supply.

ANNUITIES.

The Rates allowed by this Company are particularly advantageous. For instance—by an immediate payment of £100, a person aged 50 may secure an Annuity during life of £7, 12s. 10d., if a male, or £6, 15s. 2d., if a female. The Rates for other Ages may be learned on application at the Office.

FIRE INSURANCE.

The three ordinary classes are, 1st — Common Risks, 1s. 6d. to 2s. per Cent. 2d—Hazardous Risks, 2s. 6d. per Cent. 3d—Doubly Hazardous, 4s. 6d. per Cent.

AGRICULTURAL PRODUCE, and FARMING STOCK, (Live and Dead,) and IMPLEMENTS of HUSBANDRY, on a Farm, may be insured in *one item*, comprehending the whole produce of CROPS, in Ricks, Stooks, Barns, Stables, and in all other Farm Buildings on the Farm named; also, all Implements of Husbandry therein, and all Live Stock in the Farm Buildings; THATCHED and Slated at 2s. per Cent.

The Rates for all other kinds of Risks will be ascertained at the Head Office or Agencies throughout the country, and Insurances may be transferred from other Offices without any additional expense to the Parties.

*** A Duty is Payable to Government on all Property (unless Farming Stock and Public Hospitals) at the rate of 3s. per cent per annum.

Printed Forms of Proposal, and all other requisite information, are to be had, gratis, *at the Head Office or Agencies.*

[*Scottish Widows' Fund and Life Assurance—Continued.*]

THE large accumulated Capital and Annual Revenue of this Institution, (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the Public the full advantages arising from the principle of its constitution, combined with the utmost measure of security.

The accumulated Fund now amounts to upwards of ONE MILLION TWO HUNDRED AND SEVENTY-FIVE THOUSAND POUNDS STERLING, and the Annual Revenue to more than TWO HUNDRED THOUSAND POUNDS STERLING *per annum*, and both are in a state of steady and rapid increase.

The last periodical investigation of the Society's affairs took place at 31st December 1838, when large additions were declared to the Assurances entitled thereto. By way of illustration of these, the following particulars are given of the claim arising under a Policy opened in the year 1820, if emerging by the death of the party Assured, after payment of his Premium for the current year:—

Sum originally Assured, ...				£3000	0	0
Vested Additions up to 31st December 1831,	£540	0	0			
Do. do. 1838,	495	12	0

				1439	3	3
Total sum payable				£4439	3	3

The Ordinary Court of Directors meet weekly for the purpose of receiving and deciding on applications for Assurance, which are now granted to the extent of £5000 on approved single or joint Lives.

IN entering upon Life Assurance, many persons are led to consider the essentials of such a contract, and its contingent benefits, in a reversed order.—Enlarged prospects of Profit, or low rates of Premium, being sought for, without the security afforded by the Office, or the responsibility incurred by the Assurer, being taken into account.

THE POINT OF FIRST IMPORTANCE to a party in becoming an Insurer is, to satisfy himself that the security afforded is sufficient for the payment of his claim, at the period when, in all probability, it may become due.

IN THIS COMPANY a guarantee is afforded for its transactions, while it possesses a large and rapidly accumulating Capital, applicable solely to the Purposes of the Institution.

THE QUESTION OF NEXT IMPORTANCE is:—In which Office—the security for the Principal Sum being satisfactory—can an Assurance be obtained on the most favourable terms? And, if a Participation in Profits is desired—Where is there the prospect of the largest Additions to a Policy?

THIS COMPANY has declared larger vested Additions than any other Scottish Office, in thecase of its earlier Policies. For instance—

A Policy for £1000 opened in.....	1825 *has been increased to* £1337, 10*s.*
	1826.....£1312, 10*s.*
	1827.....£1287, 10*s.*
	1828.....£1262, 10*s.*

[*Continued.*

[*Standard Life Assurance Company—Continued.*]

The System of Division is similar to that originally *acted upon by the Equitable Society of London; the measure of an Assurer's claim upon the Divisible Fund of Profit at each Investigation being the number of years he has contributed to it.*

THE RATES OF PREMIUM, it will be found, upon referring to the annexed Tables, are moderate, and no Entry Money is charged.

THE GENERAL REGULATIONS AND CONDITIONS are also important in such a Contract.

It will be found that the Directors of the Standard have studied to allow the utmost facility to their Policy-holders in all classes.

Address by the Directors.

1843.

THE progress of the Company during the past year, both as regards the new business acquired, and the result of the period generally, exhibits evidence of success and prosperity so particularly marked, that the Directors consider it their duty to make it known to all those connected with the Institution, and to call public attention to the prosperous state of the Company's affairs,—satisfied, that an extended knowledge of the principles upon which the Institution is founded, its security, its advantages of Division of Profits, and its liberal management, is alone requisite to induce greater numbers to avail themselves of its benefits, and to make its future advancement still more remarkable.

The following are a few of the most prominent points brought under notice, at the Annual General Meeting of the Company held on the 15th December 1842:—

1. New Assurances have been opened with the Company to a very large amount, exceeding greatly the results of *any* former year's business.
2. The number of new Policies has increased in an equal proportion, showing that the increase of business does not arise from large transactions swelling up the results.
3. The increase of sums assured, and Policies, compared with the year ending 15th November 1841, is above 25 per cent upon each.
4. The Company continue to draw a high rate of interest on all their Investments; and their Funds, which are rapidly accumulating, are most satisfactorily invested, being for the greater part secured upon heritable property in Scotland.
5. The mortality of the year has been very limited, being very much below the calculated expectation,—thus evincing the care which has been bestowed by the Directors in the selection of the lives.
6. The business of the Company is conducted with economy, but, at the same time, so as to secure efficient management; and the expenses form a very small per centage upon the Annual Revenue.
7. The Company's books and accounts are kept in the most accurate manner; and in corroboration of this statement, the Directors have much pleasure in submitting the following extract from the Report by the Company's Auditor, Mr KEITH, after a careful investigation of the books and accounts of the Company for the past year:—

"I have much pleasure in reporting, that the whole books, accounts, and vouchers, relative to the affairs of the Company, continue to be kept in a most regular, distinct, and satisfactory manner, and reflect great credit on the Manager and other officers of the Company, for the clear and accurate way in which a record is kept of transactions of so great and increasing magnitude and detail as those of the Company."

[*Continued.*

[*Standard Life Assurance Company—Continued.*]

The satisfactory results which have now been mentioned were subject of much congratulation at the General Meeting; and the Chairman, in shortly going over the rise and progress of the Institution, specially called the attention of the meeting to the fact, that the Annual Revenue of the Company had increased fourfold since the year 1834, and had been doubled within the last four years—the increase in the Company's Funds having at the same time kept pace with the increase of the Revenue.

The proceedings of this meeting, otherwise, were highly satisfactory

WILL. THOS. THOMSON, *Manager.*

THE STANDARD LIFE ASSURANCE COMPANY

is one of the oldest, most extensive, and most successful of the Scottish Life Assurance Offices.

THE SECURITY

which it affords is undoubted, and the greater portion of its large accumulated Capital is invested upon the security of Heritable Property in Scotland.

THE RATES OF PREMIUM

are moderately and fairly adjusted, and are so regulated as to avoid the high charges of the old system for the Participation Scale on the one hand, while, on the other, the rate for Assurance of a certain fixed sum without Profits, is calculated upon as close an approximation to the line of actual mortality as it would be prudent to assume.

DIVISION OF PROFITS.

The Divisions are made at intervals of five years, and the greatest advantages are derived by those Assurers who continue steadily to uphold their Policies. Other institutions may be able to show a larger Bonus at the end of the first few years from the commencement of Assurances; but the advantage held out by this Company is not a large increase of the sums assured to those who are otherwise the heaviest claimants —those who die early, but to those who are best entitled to it—the parties paying the greatest number of Premiums.

The nature of Assurances with profits in the Standard Life Assurance Company, may be described in a very few words:—

As regards the Principal Sum in the Policies—It is secure and certain, not being subject to the risks of mutual Assurance, and being guaranteed by the Company's protecting Capital.

As regards the Division of Profits—The principle adopted may be said to be Tontine, the Policy-holder claiming upon the Divisible Fund *at each Division*, according to the amount of his Policy, and the number of years his Assurance has existed.

This principle of division is similar to that which has been so successfully acted upon by the

EQUITABLE SOCIETY OF LONDON

in the case of its *privileged* policy-holders.

[*Standard Life Assurance Company—Continued.*]

The Vested Additions to Policies already made by the Standard Life Assurance Company, proceeding upon this principle, are as follows :—

It will be perceived that the Standard Life Assurance Company have already divided Profits at two periods, viz., November 1835 and November 1840. The future Divisions fall to be made at intervals of five years, the next being in November 1845.

All Persons now joining the Company's Participation Scheme

will participate in that Division, and in future Divisions, in the following manner :—

Claim for Profits, according to the number of years the Policy has existed, calculating from its date at each period.

1845	1850	1855	1860	1865	1870	1875
3	8	13	18	23	28	33

and so on, increasing at each period.

That is, a party assuring will, in the next Division in 1845, have a claim for an addition to his Policy corresponding to three years; in the Division of 1850, for an addition corresponding to eight years; in 1855, for thirteen years; and so on, increasing at each quinquennial period.

It is evident that no other mode of Division affords the prospect of so much benefit to all who propose to uphold their Policies during the whole of life. The Standard Office is therefore particularly eligible for all persons assuring for Family Provisions, and in an especial manner for those who, from their occupations, or strong natural constitution, have more than an ordinary expectation of longevity.

THE GENERAL REGULATIONS AND CONDITIONS

of the Standard have been framed upon principles of fairness and liberality, so as to encourage Assurances among all classes of the community.

INTENDING ASSURERS are requested to examine the provisions of this Association. The Directors continue frequently to receive proposals from parties who had assured with other offices, without due consideration, and who find they will even now be gainers by surrendering these Policies, and opening new ones in this Office.

AS COMPARED WITH PROPRIETARY OFFICES,

It possesses (in common with other Mutual Offices) this essential advantage, THAT THE WHOLE PROFITS BELONG TO, AND ARE DIVISIBLE AMONG, THE POLICY-HOLDERS; while the Premiums are as low as by the *Non-participating* scale of any of these offices. The following, again, are its advantages

AS COMPARED WITH OTHER MUTUAL OFFICES:—

1*st*, PREMIUMS AT EARLY AND MIDDLE AGES ABOUT A FOURTH LOWER; whereby the *greatest present benefit* is *secured* to all.

2*d*, A MORE ACCURATE ADJUSTMENT OF THE RATES OF PREMIUM TO THE SEVERAL AGES: whereby obviating the injustice usually done to the younger members, by overcharging their Premiums to make up for a deficiency on those of the old.

3*d*, A PRINCIPLE IN THE DIVISION OF THE SURPLUS MORE SAFE, EQUITABLE, AND FAVOURABLE TO GOOD LIVES; whereby those who survive the average duration of life will derive the greatest *future contingent* advantages.

4*th*, EXEMPTION FROM ENTRY-MONEY; a heavy and unequal addition to the first year's payments.

Annual Premium to assure £100 at death.

£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7

The Premiums may be made to cease entirely after a limited number of payments. Those for 21 years only will be found nearly the same as most offices require for the whole of life.

THIS Institution was founded for the purpose of securing Provisions payable DURING LIFE. This object is effected by the Mutual Contributions of Members to Schemes opened in each year, to be divided respectively, at the end of certain fixed periods, amongst the *Survivors* of each Scheme. By thus combining the advantages of SURVIVORSHIP LIFE ASSURANCE with the improvement of money by judicious investments, this Society presents the most advantageous method of providing for any contingent event.

The leading objects of the Society are—

I. TO SECURE A FUND FOR AFTER LIFE. That this can be effected, by means of this Society, upon terms more advantageous than are offered by any other institution, will be seen from the following illustrations:—If a professional man at the age of 25 secures 10 shares in a Scheme of this Society, the Funds of which will be divided at the end of 25 years, he will, in the event of the Society progressing as favourably as hitherto, receive, at the age of 50, such a sum as would purchase a Government annuity of £108, while the same annual contribution, if paid to a respectable Assurance Company would secure a deferred annuity, to commence at the same age of only £67, 12s. Or, again, if the same party were to join the 30 years' Scheme, he could, for the trifling contribution of £16, 0s. 10d., secure such a sum as would, at the age, of 55, purchase a Government annuity of £135, whilst, for a similar premium, an Assurance Company would secure him a deferred annuity of only £74, 15s. Such advantages as these this Society is enabled to offer, as it has been established for the express purpose of transacting this Department of Business only, on the most favourable terms, and not to realize profits to be distributed amongst a body of Proprietors, or amongst a class of Assurers, having separate rights or interests.

[*Continued.*

[*The Mutual Accumulation Society—Continued.*]

II. To secure Provisions for Children. By payment of the trifling sum of £3, 8s. 10d. a-year upon the life of a child aged 1, there will, in the event of the Society progressing as hitherto, and calculating according to the Government Tables of Mortality, be payable to the child, on its attaining the age of 21, a sum exceeding £120. Parents are thus enabled with advantage to set apart a small specific sum from the income of each year for the purpose of providing for their families; and, by careful investments, combined with the benefits accruing from the death of other members, a fund is accumulated greater than private individuals could succeed in realizing by laying aside their annual savings; whilst, in the event of the benefit lapsing in consequence of the predecease of the child, the object for which the fund was in the course of being provided no longer exists. On the other hand, should the parent die, and it be found inconvenient to continue the annual contributions, the benefit of those already paid is not thereby lost; but, by an equitable arrangement provided in the Deed of Constitution, the value of the past contribution is ascertained according to a fixed rule therein laid down; and the child, on surviving the period of division, will be entitled to the corresponding share of the Fund This peculiar feature renders this Society the most advisable medium for securing provisions to the Younger Children of Landed Proprietors, and to the Families of those engaged in Professional or Mercantile Pursuits, and, generally, of all whose incomes are dependent on their life or health.

Detailed Prospectuses, containing Specimen Tables of the Rates of Contributions, and all information, may be obtained on applying at the Head Office, or any of the Agencies.

J. SIBBALD & SONS,

FURNISHING IRON-MONGERS TO HER MAJESTY,

64, *GEORGE STREET, EDINBURGH.*

J. S. & S. having found, after several years' experience, that Kinnaird Grates are superior to all others for curing Smoke, and throwing out heat, take the liberty of recommending them to Gentlemen in the country who may require Grates, and beg also to say, that they continue to send out men to build up these and make such alterations as are likely to prevent Smoke.

The advantages of Kitchen Ranges with Back Boilers are now so generally admitted, from the facilities they afford of heating water in any quantity for Baths, Washing, Scullery and Kitchen purposes, that J. S. & S. mention them, not so much because they require recommendation, as to state that, from the experience they have had in them, they are enabled to execute orders for them in a most satisfactory manner.

In addition to Smoke Jacks of the ordinary construction, J. S. & S. also make an improved kind with enlarged fly Wheel, and in which the machinery is so placed as to be little affected by the heat or smoke, and may therefore be kept constantly in use at a very trifling expense.

Boiling Tables with Hot Closets, Ovens, Charcoal Plates, &c., of the most improved construction.

As it is impossible in this, an Advertisement, to enumerate even a small part of the goods sold by J. S. & S., they will be happy to send a book, containing a detailed List, free, by post, to such families as may desire it.

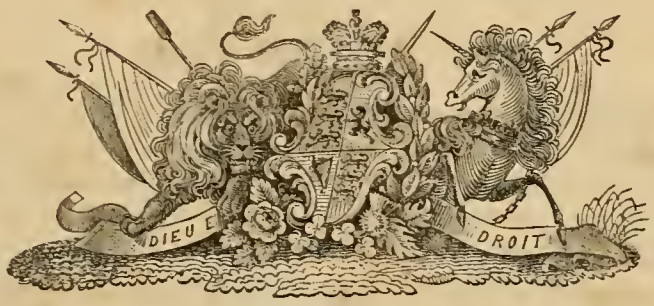
APPARATUS

FOR

VENTILATING AND WARMING

PUBLIC BUILDINGS, CHURCHES, MANSIONS, PRISONS, &c.

(By Her Majesty's Royal Letters Patent.)



G. AND J. HADEN, ENGINEERS AND PATENTEES,

TROWBRIDGE, WILTSHIRE,

AND 8 ST ANDREW SQUARE, EDINBURGH.

G. & J. HADEN have for many years been extensively engaged in Warming and Ventilating Public Buildings, Churches, Prisons, &c., and they have recently designed and obtained a Patent for a Combined Radiating Warm-Water Apparatus, which they can confidently recommend as being Effective, Economical, and Durable.

The Apparatus consists of a Boiler, on a peculiar principle, to which Pipes are attached, for the Circulation of Hot Water. The whole of the Radiating Surface, for raising the temperature of the air, can never exceed that of Boiling Water, but will be generally worked at a temperature of about 120 degrees.

This Apparatus being placed in connection with one set of Flues for introducing fresh air, and another set for abstracting what is impure, is capable of maintaining an agreeable and uniform temperature, together with a constant change of atmosphere in the most inclement seasons.

They are prepared to give Designs and Estimates for the above, including all the working-drawings necessary for constructing the Flues, &c.

The Apparatus is manufactured by themselves, and in each case shall be warranted to raise the temperature to any point that may have been previously agreed upon.

VENTILATION AND WARMING OF PRISONS.

VENTILATION OF CELLS.

The objects to be attained under this head are—

1*st*, The supply of a sufficient quantity of fresh air, and, when necessary, of temperated air, into each cell, without subjecting the occupier of it to any inconvenience from the draft.

2*d*, The withdrawal of a like quantity of foul air.

3*d*, That no additional facilities of communication between prisoners in adjoining Cells should be afforded by the means made use of.

In the consideration of the means by which these objects could be secured, we have had the advantage of the practical experience of those eminent Engineers, Messrs HADEN of Trowbridge, who, on being placed in possession of our views and principles, have devoted much time to the details of a system which has been adopted in order to secure the conditions proposed.

Their Report on the subject is annexed in the Appendix of Third Report, November 1837.

45 PARLIAMENT STREET, 17*th February* 1843.

GENTLEMEN,—I have now had sufficient experience of the new Hot Water Apparatus you have designed and applied in warming three wings of Pentonville Prison, to be enabled to state to you that it fulfils all the conditions to which I directed your attention. An equable temperature of from 52 to 58 degrees has been maintained in all the Cells, under circumstances of great variation in external temperature. The consumption of fuel has not exceeded from 2 to 2½ cwt. of coal for sixty-six Cells, and the Ventilation or quantity of fresh air introduced into each Cell has been from 30 to 45 cubic feet per minute. The cost of maintaining this temperature and ventilation has been about ½d. per Cell for 24 hours.

You have now completed your contract with the Commissioners of Her Majesty's Woods and Forests, for works at Pentonville; and I only do you justice in stating that every thing you have undertaken has been executed in a manner which has proved your practical skill and ability, and that all your engagements have been fulfilled with straight-forward integrity.—I am, GENTLEMEN, your obedient servant,

To Messrs G. & J. HADEN. (Signed) J. JEBB.

Copy of a Resolution of the Commissioners for the Government of the Pentonville Prison.

At a meeting of the Commissioners for the government of the Pentonville Prison, held at the Prison, Saturday, 4th March 1843.

Present LORD WHARNCLIFFE, IN THE CHAIR.
THE SPEAKER OF THE HOUSE OF COMMONS.
SIR B. BRODIE, BART.
MAJOR JEBB, ROYAL ENGINEERS.
MR CRAWFORD.
MR RUSSELL.

Resolved,—

1*st*, "That the results of the experiments on the Warming and Ventilation of the Cells, which have been conducted under the Superintendance of Dr OWEN REES, be communicated to Messrs HADEN.

2*d*, "That it be intimated to Messrs HADEN that the Commissioners for the government of the Pentonville Prison, consider that these objects, so essential to the health of the Prisoners, have been most successfully accomplished by them, and that all the arrangements which have been made for effecting the same are highly satisfactory."

(Signed) WHARNCLIFFE, Chairman.

Extract from the Report of the Commissioners for the Government of Pentonville Prison, presented to Parliament, March 1843.

PENTONVILLE PRISON, 4*th March* 1843.

The construction and general arrangements of the Prison have been found most convenient in facilitating and promoting the administration of the discipline in all its branches. The perfect Ventilation of the Cells, and the means of maintaining equal and proper Temperature, have been most successfully accomplished, and cannot fail to have a beneficial effect on the health of the Prisoners.

The system of Ventilation and Warming adopted in this Prison is so effective and economical* that we cannot too strongly recommend its adoption in the Prisons throughout this Country.

ROBINSON'S DRYING MACHINE,

FOR DRYING WOOL, COTTON,

AND OTHER FIBROUS MATERIALS, IN THE MANUFACTURED AND UNMANUFACTURED STATE.

G. AND J. HADEN, ENGINEERS AND PATENTEES,

TROWBRIDGE, WILTSHIRE,

AND 8 ST ANDREW SQUARE, EDINBURGH,

HAVING purchased from Mr ROBINSON the Patent Right for Scotland, of his Highly Valuable Discovery, beg to call Public attention to the great advantages of the Machine, both as to Economy and Expedition, so amply acknowledged from its Extensive use in England and elsewhere. They are now prepared to supply the Machines, and have them forwarded to any part of the Country.

This valuable invention, which is now universally adopted in France and Prussia, offers to the Manufacturers of this Country advantages hitherto unknown—Improvement in Colour, Economy in Labour, and Saving in Fuel.

This Machine, for drying by Atmospheric Air, is one of the most useful Inventions ever offered to Manufacturers, and has already given universal satisfaction to numerous Manufacturers of Woollen and Stuff Goods, as by its means all kinds of Scoured and Dyed Wool, Woollen Cloths, Stuffs, Baize, Flannels, Blankets, Mousseline de Laines, Merinos, and all similar Fabrics, can be dried in the short space of *ten minutes*, leaving only sufficient moisture to work and finish off the Goods.

To Dyers of Worsted Yarns for Carpet-Making, this Machine will prove peculiarly advantageous, since Worsted Yarns and Cloths can be put into the Machine in bulk quite wet, and in less than ten minutes' working will be sufficiently dry, leaving a suppleness of texture and brilliancy of colour unattainable by heat.

It has been found equally valuable for Domestic purposes, in Drying all sorts of Wearing Apparel, Bed and Table Linen, Rugs, Counterpanes, &c., and is now in constant use at many Large Establishments in the Kingdom, such as the Middlesex and Surrey Lunatic Asylum, the Female Penitentiary, Pentonville, Guy's Hospital, the Work-houses of St Martin's-in-the-Fields, and Lambeth, to all of which the Patentee begs to give reference.

The peculiar advantages of this Machine, over all others hitherto introduced to the Public, are:—Its Simplicity of Construction—Extraordinary Dispatch—Economy in Labour and Fuel—Saving in the Wear and Tear, wringing being entirely obviated,—all combining to give advantages in carrying on Laundry business, and completely overcoming the important difficulties often experienced in Drying.
